

## CLASSICS M.A. Reading List

The purpose of the Reading List is to foster in students the practice of reading Latin frequently and extensively, regardless of ultimate academic or career goals. Completing this list, in addition to your course work, will prepare you very well for further graduate study. Some of the authors and works on this list will be covered by courses, others will not; it is the primary responsibility of the M.A. student to cover all items listed, independent of course work. In addition, students should realize that this reading list, like all degree requirements, contains the **minimum** expected of them.
